Equipment Information

MODULE **INVERT** **ER** **ARRAY**

Manufacturer: _____ Manufacturer: _____ Number of Modules: _____

Model: _____ Model: _____

Model Warranty Years: _____ Inverter Warranty Years: _____

Module Power Nameplate Rating: _____

Equipment Orientation (e.g. south, southwest, etc.): _____ Tilt Angle in Degrees: _____

Installer/Contractor _____ PV System Purchase Date: ____/____/____

You must have obtained a pre-approval letter from LIPA before the start of your PV system installation. Upon installation of your PV system, please provide invoices for all products described above in the Equipment Information portion of this application, including invoices for modules, inverters, other hardware and wiring. LIPA will only complete the processing of your application upon receipt of these documents, and of a completed signed Parallel Generation Agreement.

Rebate Calculation

Peak PV array output (DC watts) multiplied by \$5.00/watt as rated under photovoltaic standard test conditions (STC). **Maximum Rebate: 10kW or \$50,000.**

Watts in DC _____ x \$5.00/watt = \$ _____ Total Rebate

PV System Total Equipment Cost: \$ _____

I certify that I purchased the PV system described in the Equipment Information portion of this application form and on the attached product invoices, and installed it or caused it to be installed at the location indicated above. I reviewed and agree to the terms and conditions stated on both sides of this application, and have obtained all of the necessary building permits and electrical approvals that may be required for a PV system installation. I understand that any deliberate attempt to misrepresent information in this application will disqualify me from all claims to existing rebates offered through LIPA's Solar Pioneer Program.

Commercial Solar Pioneer Rebate Program Application Form

Eligibility Requirements

1. You must be a LIPA customer whose commercial account is current at the site of the installation.
2. The installed PV system must be 300 kVa or less.
3. Only new PV equipment is eligible for a rebate.
4. Prior to rebate qualification, commercial businesses installing a PV system must have completed and signed LIPA's Parallel Generation Agreement.
5. LIPA reserves the right to use the rebate money to credit accounts in arrears.
6. LIPA reserves the right to inspect your installation and a copy of your contract in order to ensure compliance with program requirements.
7. LIPA will not be responsible for any tax liability imposed as a result of rebate payments.
8. To receive a \$5.00 per watt rebate, the required PV paid, itemized invoices must be received by LIPA.
9. This program applies to PV system installations performed during the term of this rebate program. The term of this rebate program commenced on August 1, 2002. LIPA reserves the right to modify or withdraw this program and the rebates available under it through the year 2002 or any time thereafter.
10. Unless explicitly stated otherwise, PV rebates constitute stand-alone offers and cannot be used in conjunction with any other LIPA rebate program.
11. The rebate amount **cannot exceed the total cost of the PV system.**

Customer Rebate Instructions

1. Fill out this rebate application entirely. All information is necessary for processing.
2. Fill out **two LIPA Agreements**, available from your solar contractor
3. Please submit the completed **two (2) original Rebate Applications**,

NYECOR Electrical Construction
65-59 Parsons Blvd.
Flushing, NY 11365

4. If your application is approved, you will then receive a pre-approved rebate letter from LIPA indicating your rebate amount.
5. Upon installation of your PV system, make a copy of your itemized product invoice. **Your itemized invoice must include all PV equipment model numbers, purchase/installation date and invoiced total cost.** LIPA provides rebates based on the product invoice. If any information is missing from your product invoice(s), LIPA will not be able to determine your eligibility for a rebate. Please mail this information to ***LIPA Solar Pioneer Program, Rebate Processing, 131 S. Hoffman Lane, Islandia, NY 11749.***

Please allow up to 60 days for delivery of the rebate check. An inspection of your installed PV system may be required by LIPA prior to the issuance of a rebate check.
